Organizational Structure of NHA

NHA Organizational Structure

1.2 Ayushman Bharat PM-JAY

Ayushman Bharat, a flagship scheme of Government of India was launched as recommended by the National Health Policy 2017, to achieve the vision of Universal Health Coverage (UHC). This initiative has been designed so as to meet SDG and its underlining commitment, which is "leave no one behind".

Ayushman Bharat is an attempt to move from sectoral and segmented approach of health service delivery to a comprehensive need-based health care service. Ayushman Bharat aims to undertake path breaking interventions to holistically address health (covering prevention, promotion and ambulatory care), at primary, secondary and tertiary level. Ayushman Bharat adopts a continuum of care approach, comprising of two inter-related components, viz:

- **Health and Wellness Centres (HWCs):** In February 2018, the Government of India announced the creation of 1,50,000 Health and Wellness Centres (HWCs) by transforming existing Sub Centres and Primary Health Centres. These centres would deliver Comprehensive Primary Health Care (CPHC) bringing healthcare closer to the homes of people covering both maternal and child health services and non-communicable diseases, including free essential drugs and diagnostic services. Health and Wellness Centers, are envisaged to deliver an expanded range of services to address the primary health care needs of the entire population in their area, expanding access, universality and equity close to the community. The emphasis of health promotion and prevention is designed to bring focus on keeping people healthy by engaging and empowering individuals and communities to choose healthy behaviors and make changes that reduce the risk of developing chronic diseases and morbidities.
- **Pradhan Mantri Jan Arogya Yojana (PM-JAY):** The second component under Ayushman Bharat is PM-JAY, which aims at providing health benefit cover of Rs. 5 lakhs per family per year for secondary and tertiary care hospitalization to over 10.74 crores poor and vulnerable families (approximately 50 crore beneficiaries) on cashless family floater basis. There is no cap on the family size under the scheme. This scheme was launched on 23rd September 2018 by the Hon'ble Prime Minister Shri Narendra Modi on PAN India basis. PM-JAY has been rolled out for the bottom 40% of poor and vulnerable population. The households included are based on the deprivation and occupational criteria of Socio-Economic Caste Census 2011 (SECC 2011) for rural and urban areas respectively. The scheme subsumed then existing Rashtriya Swasthya Bima Yojana (RSBY), launched in 2008 and Senior Citizen Health Insurance Scheme, launched in 2017. Therefore, the coverage mentioned under PM-JAY also includes families that were covered in RSBY but were not present in the SECC 2011 database. PM-JAY is completely funded by the Government, and cost of implementation is shared between Central and State Governments.

Key features of PM-JAY

1. World's largest health insurance/ assurance scheme fully financed by the government.
2. Provides benefit cover of Rs. 5 lakhs per family per year, for secondary and tertiary care hospitalization across public and private empaneled hospitals in India.
3. Over 10.74 crore poor and vulnerable entitled families (approximately 50 crore beneficiaries) are eligible for these benefits.
4. Provides cashless and paperless access to health care services for the beneficiary at the point of service.
5. Will help reduce catastrophic expenditure for hospitalizations, which pushes 6 crore people into poverty each year, and will help mitigate the financial risk arising out of catastrophic health episodes.
6. No restrictions on family size, age or gender.
7. All pre-existing conditions are covered from day one.

8. Covers up to 3 days of pre-hospitalization and 15 days post-hospitalization expenses such as diagnostics and medicines.
9. Benefits of the scheme are portable across the country i.e. a beneficiary can visit any empaneled public or private hospital for cashless treatment.

1.3 About NDHM

1.3.1 Background

1. In 2017, the Government of India announced National Health Policy (NHP) with the following goal: “The attainment of the highest possible level of health and wellbeing for all at all ages, through a preventive and promotive health care orientation in all developmental policies, and universal access to good quality health care services without anyone having to face financial hardship as a consequence.”
2. The NHP prescribed specific goals for adoption of digital technologies. Taking that as reference the Ministry of Health and Family Welfare constituted a committee to create an implementation framework for the National Health Stack. This effort resulted in creation of the National Digital Health Blueprint (NDHB). The Blueprint comprises the details of building blocks to fulfil the vision of the NHP and an action plan to realize digital health in a comprehensive and holistic manner.
3. Taking forward the NDHB, Government of India recommended setting up of a NDHM (National Digital Health Mission) by leveraging technology to set-up digital health eco-system that supports universal health coverage in an efficient, accessible, inclusive, affordable and timely manner through provisioning of a wide range of data, information, and infrastructure services.

Bidders are requested to refer the NDHB report (Refer https://main.mohfw.gov.in/sites/default/files/Final%20NDHB%20report_0.pdf) for understanding of various building blocks of NDHM.

In order to achieve its objectives, in particular, to strengthen the accessibility and equity of health services, including continuum of care with citizen as the owner of data, in a holistic healthcare programme approach leveraging IT & associated technologies and support the existing health systems in a ‘citizen-centric’ approach, the NDHM envisages the following specific objectives-

1. To establish state-of-the-art digital health systems, to manage the core digital health data, and the infrastructure required for its seamless exchange;
2. To establish registries at appropriate level to create single source of truth in respect of clinical establishments, healthcare professionals, health workers, drugs and pharmacies;
3. To enforce adoption of open standards by all national digital health stakeholders;
4. To create a system of personal health records, based on international standards, easily accessible to individuals and healthcare professionals and services providers, based on individual’s informed consent;

5. To promote development of enterprise-class health application systems with a special focus on achieving the Sustainable Development Goals for health;
6. To adopt the best principles of cooperative federalism while working with the States and Union Territories for the realization of the vision;
7. To ensure that the healthcare institutions and professionals in the private sector participate actively in the building of the NDHM, through a combination of prescription and promotion;
8. To ensure national portability in the provision of health services;
9. To promote the use of clinical decision support (CDS) systems by health professionals and practitioners;
10. To promote a better management of the health sector leveraging health data analytics and medical research;
